

Internet Domain Name Registration & Renewal Services

September 2026

Domain Name Registration Charges

Charge ex. VAT	Domain Suffix	Term
£50.00	.uk	2 years
£75.00	.com / .net	2 years

Note : to register a new domain name, we will require your registered office address details, along with contact information. It is important to ensure that correct information is provided to avoid any disruption to services associated to your domain name as audit checks are conducted by authorities with overall responsibility for domain registrations.

Domain Name Renewal/Expiry/lapse

A reminder, along with an accompanying invoice will be sent to the registered contact point, SIXTY days before your domain is due for renewal, followed by further reminders nearing the renewal date, if payment has not been received into our bank account in time.

Charges are the same as above, with renewal term being the same too.

Note : if payment is not received before the domain expires, the domain will be left to lapse.

Transfer of Domain Name Registration Service

From a 3rd party provider to ICU Group Ltd

ICU Group do not charge a fee for transferring any domains with a .UK suffix across to ICU's management. For .UK domains you will need to change the current IPS TAG to one we supply you with. We will endeavour to setup associated DNS records on our DNS hosting platform ahead of the domain being transferred and ask that you update the NAME SERVER information for your domain ahead of transfer, thereby minimizing the possibility of any disruption to associated services. If we are furnished with your current hosting details we will be happy to take care of all of the above for you at no extra cost. Likewise, if you provide ICU with the contact details for your current domain hosting provider, we will be happy to converse with them to co-ordinate transfer of your domain name(s) over to management by ICU Group Ltd.

Domains without a .UK suffix

For domains having a .COM or .NET suffix (not an exhaustive list), the domain will need to be UNLOCKED and we will require the Authorisation/EPP/Transfer Authorisation Code to be able to effect the transfer.

NOTE : as part of the transfer, your domain name's term will be automatically extended by TWELVE months and a charge of £37.50 + VAT will apply.

NOTE : transfers usually take around 5 – 7 workings days to complete.

NOTE : we will not transfer non .UK domains if the domain is due to renew/expire within 14 days.

Transfer of Domain Name Registration Service to a 3rd party.

We will require written authorization from the authorized contact for the domain, before agreeing to transfer a domain to a 3rd party. There are no charges for transferring a domain out, but it should be noted that transfers of domains with a .com and/or .net (not an exhaustive list) will most likely incur a charge from your provider, along with the domain's current term being extended by a further 12 months.
